General Information

THE MAIN CAMPUS of Stetson University is in DeLand, Florida, a residential city of 10,000. It is one hundred miles south of Jacksonville and twenty miles west of Daytona Beach, in the semi-tropical belt of the state characterized by citrus and diversified farming and cattle raising. The St. Johns River is nearby and the resort areas of the east coast and the central lake sections are readily accessible. The mild climate of this portion of Florida combines a warm winter with a relatively less humid summer than characterizes the tropical area of the state.

From its founding Stetson has maintained a faculty dedicated to Christian scholarship. It is the Baptist University of Florida. It endeavors to transmit to its students a knowledge of the Christian religion, to help them understand that faith and its ethical implications, and to lead them to commit themselves to Christian values and to express these in campus life.

HISTORY

Stetson was founded in 1883 and became a college in 1885. Known first as DeLand Academy, after the principal founder of the town, Henry A. DeLand, its name was changed to Stetson University in 1889 in honor of the well-known hat manufacturer who gave generously of his time and means. From 1898 to 1910, Stetson was affiliated with the University of Chicago in a unique student exchange plan. During the first decade of the twentieth century Stetson was one of the few collegiate institutions of fifty or more students in the Southeast that required sixteen Carnegie units for admission and four years' work for the A.B. degree. The College of Law was organized in 1900, the first law school in Florida. Stetson likewise pioneered in offering work in music and in business administration, and graduate study leading to the Master of Arts degree has been given since early in the century. Popularly known as Stetson University, the legal name of the corporation is John B. Stetson University.

PURPOSE

The University works to equip its students to take their places in American society. Stetson men and women are urged, in the light of Christian faith, to value the spiritual and moral above the

materialistic, to cherish personal integrity, and to seek further truth with reverence. They examine the heritage of the past in order to understand that a truly free society consists of free individuals aware of their responsibilities. The University holds that these beliefs underlay the founding of this nation and that its survival in the atomic age demands their reaffirmation. It is the goal of the University to aid each man and woman to achieve full realization of his capabilities and full awareness of his obligations.

To this end the University strives to become a community, the members of which share in the search for knowledge and the process of Christian self-discovery. It provides a program of general education, a variety of specialized studies, and opportunities for physical, social and religious activities. It joins in a common worship service regularly as an integral part of its total life. Unusual advantages are afforded by visiting artists and lecturers, religious emphasis week, the fine arts series and the music and dramatic events of the year.

ACCREDITATION AND RECOGNITION

The primary accreditation of American colleges and universities is that of the regional accrediting body. For the South this is the Southern Association of Colleges and Secondary Schools. Stetson is fully accredited by the Southern Association. It also holds membership in the Southern University Conference and in the Association of American Colleges. The College of Law is accredited by the American Bar Association and is a member of the Association of American Law Schools. The School of Music is a fully accredited member of the National Association of Schools of Music. The program of teacher education is accredited by the National Council for the Accreditation of Teacher Education.

Stetson University is approved by the American Association of University Women.

THE SEVERAL COLLEGES

THE COLLEGE OF LIBERAL ARTS is the oldest and largest of the four colleges comprising the University. It offers work leading to the degrees Bachelor of Arts and Bachelor of Science, the requirements for which are on pp. 30-31; and to the degrees Master of Arts and Master of Science, described on pp. 47-48.

THE COLLEGE OF LAW is the oldest law school in Florida. It is located in the Gulfport section of St. Petersburg. It offers a three-year course leading to the degree Bachelor of Laws. Detailed information concerning the College of Law may be found on pp. 97 and in the *Bulletin* of the College of Law.

THE SCHOOL OF MUSIC provides courses leading to the degrees Bachelor of Music and Bachelor of Music Education. Students may major in music for the Bachelor of Arts degree. Training is

offered for the music professions, for directors of church music, and for church organists. Courses are available to those not majoring in music. Information is given on p. 101.

THE SCHOOL OF BUSINESS offers courses leading to the degree Bachelor of Science in Business Administration. Students may concentrate in any of the ten areas described on pp. 125-137. A Certificate in Secretarial Science is granted for two years work in the secretarial curriculum.

BUILDINGS AND CAMPUS

The principal campus of Stetson University comprises about seventy-five acres within easy walking distance of the center of DeLand. Some thirty buildings house its varied activities. Administrative offices are in Elizabeth Hall, which is the largest classroom building and contains the principal auditorium. The physical sciences are housed in Flagler Science Hall, the School of Music in DeLand Hall and annexes, dramatic activities in the Stover Theater, and the art department in Holmes Hall. The School of Business has its own building. Allen Hall, the student religious center, provides facilities for recreation, worship, and conference.

The William Tyler Olcott reflecting telescope, the gift of the Daytona Beach Astronomical Society, has a twelve-inch mirror with a focal length of one hundred inches. In addition to exhibits of Florida plant and animal life and arts and crafts of American Indians, the Monroe Heath Museum houses the L. L. Rice Planetarium, a Spitz instrument recently given to the University; frequent showings are open to the public as well as to University classes. The William E. Holler Memorial Fountain, with its display of colored lights, beautifies the quadrangle between Elizabeth Hall, the Library, and Holmes Hall. There are gymnasiums for men and for women, several playing fields, dormitories, and refreshment and recreational facilities.

A new Student Union was opened in 1957. Commodious and air-conditioned, it houses the cafeteria, post office, college store, faculty and student lounges, bowling alleys, recreation rooms and offices for various student activities.

THE LIBRARIES

The several libraries of the University house approximately 225,000 catalogued items. The principal collection is that of the Carnegie-Sampson Library, the building for which was erected in 1909 with the assistance of a Carnegie grant. At that time a maintenance fund was established by Elizabeth, Countess of Santa Eulalia. When a new wing was added in 1929 it was named for Mr. C. T. Sampson, an early and generous friend of the Library. This, the University Library, has some 60,000

books, 16,000 bound periodicals, and 109,000 government documents, the last comprising the accumulations of the first document depository in Florida. The University subscribes to the Evans-Sabin Microcard Project, and is cataloguing from this source a steadily growing number of items relating to early America. The Library of the College of Law comprises approximately 32,000 bound volumes. A collection of music scores and recordings is maintained by the School of Music. A significant collection of Florida and Southern Baptist archives is housed in Allen Hall.

HEALTH SERVICE

The University physician keeps daily office hours at the Infirmary which is under the supervision of a registered nurse. The Fish Memorial Hospital in DeLand, considered a model fifty-bed hospital, provides excellent service. Parents are notified by the Deans of Women and Men of serious illness or emergency. The University reserves the right to cancel the registration of any student whose health record fails to meet the standards set by the University physician.

ORGANIZED RELIGIOUS LIFE

It is the purpose of Stetson University to realize in the curriculum and the classroom the implications of its motto, *For God and Truth*. Every endeavor is made to translate Christian principle into campus life and activity. Chapel services, required of all students, are held regularly. A year course in the Christian religion is required for graduation. Students are urged to attend Sunday School and church services. Vespers, planned and directed by students, are held several evenings a week. Religious organizations endeavor to increase the churchmanship of the student body. The Dean of the Chapel coordinates the interests represented by the several organized religious groups.

GUIDANCE

The guidance program is planned to assist students at all levels in growing toward emotional and vocational maturity.

A series of tests is administered to all freshmen and transfer students, as a part of the Orientation Program (see p. 26), to help them gain understanding of their abilities, aptitudes, and interests. The Guidance Office administers and interprets further tests to individual students who wish this help in making educational, vocational, and personal decisions.

Each student is assigned to a faculty adviser who helps him interpret test data, study needs and interests, and plan his academic course in terms of his own self-understanding. Faculty ad-

visers are available for scheduled planning-interviews throughout the year, as well as for casual, friendly conferences, and social contacts. The faculty advisory system is coordinated by the Director of Guidance, who supplements the adviser conferences with vocational, educational, and personal counseling.

Many guidance functions are carried out by other agencies. The Dean of Men and Dean of Women exercise general supervision over the conduct and welfare of students through personal counseling and group contacts. Faculty specialists in many fields are available to confer with students. The Dean of the School or College and the Registrar will help evaluate credits and plan programs. The physical education department, the University physician, and the nursing service will help with health problems. The education department and General Education staff provide special clinics for students who need more effective habits of reading and study.

STUDENT ORGANIZATIONS

THE STUDENT GOVERNMENT ASSOCIATION is comprised of all students. Its object is to represent and further the best interests of the student body and of Stetson University, to coordinate the various student organizations, and to cooperate with the University authorities for the common good of the institution. Under the Student Government Association each College and School of the University has its separate organization.

THE SUMMER SESSION

An eight-weeks summer session is held regularly, beginning the third week in June. Within this period are several three-weeks sessions. The offerings are selected from this Catalogue. Courses are taught by members of the University faculty augmented by visiting specialists. Nine semester hours is the normal maximum student load. For details see the Summer Session issue of this *Bulletin*.

Each summer, the Charles E. Merrill Program of American Studies conducts a six-weeks session for twenty-five selected high school teachers in the social studies. Outstanding men in the field of American studies are invited for this period. In 1960, the visiting professor was Albert Stone of Yale University.

THE SUMMER PROGRAM FOR EARLY ADMISSION AND ADVANCED STUDIES

This new program provides an opportunity for a carefully selected group of students who have just finished the junior year in high school to apply for early admission to Stetson. Those completing the course with distinction will be admitted to Stetson as freshmen in the fall. They may receive their high school diplomas at the end of their freshman year, and may be awarded their bachelors degrees from Stetson within three additional years.

Stetson will grant advanced placement (exemption from college freshman courses) to students who demonstrate proficiency in certain subject matter areas. Proficiency will be measured by the Advanced Placement Tests of the College Entrance Examination Board and/or the students' performance in the summer program. Those granted advanced placement may ultimately complete their formal education at least one year early. Full information may be obtained from the Director of Admissions.

THE HONORS PROGRAM

An Honors Program is conducted by the faculty for those superior students whose abilities and academic objectives indicate that individualized study under the direction of faculty will be of

greater benefit than the usual majors in course. Normally, a student will enter the Honors Program in his junior year, but at the discretion of the Executive Committee of the Honors Faculty some students may be admitted earlier than the junior year, or at the beginning of the senior year. Having been selected for the Honors Program, a student thereafter plans his work with the director of his program. He will be enrolled in some classes, but will do a significant portion of his study individually, reporting his results and analyzing his findings in conference with his director, and in papers submitted to the faculty members assisting him in his study. At the conclusion of his work, he will stand an oral examination for his Honors degree. Deadlines for application to the Executive Committee of the Honors Faculty are December 1 for admission in the spring semester, and May 1 for admission in the fall semester. For details of this program students should consult the Chairman of the Executive Committee of the Honors Faculty.

Beginning in 1960-61, a four year Honors Program will be offered. For details, students should consult the chairman of the Executive Committee.

THE CHARLES E. MERRILL PROGRAM OF AMERICAN STUDIES

In response to the challenge of contemporary events, the University has organized a fresh approach to the study of the American heritage, to emphasize particularly the principles upon which this nation was founded and has grown great. Supported by the generosity of the late Charles E. Merrill, the American Studies Program offers a major in the College of Liberal Arts, the purpose of which is to give the student a fuller understanding of the American democratic system, and of the philosophy on which it rests (for details see pp. 49-50.) The Program won a Freedoms Foundation award in 1955. It is integrated with the general education courses, notably G15-16, in which all students who pass through the University will study the unique features of the American way of life and will contrast them with communism and other totalitarianisms. A graduate program designed especially for public school teachers will lead to the Master's degree in American Studies.

The department offers each summer a six-hour graduate course in American Studies. A limited number of scholarships, covering room, board, and tuition, are available for this course. For full information write the Director of the Merrill Program of American Studies.

COMBINATION PROGRAMS IN FORESTRY AND ENGINEERING

Stetson University offers combination programs in forestry

with the School of Forestry of Duke University, and with the colleges of engineering of Duke and of the University of Florida. Upon successful completion of the appropriate five-year coordinated course of study, a student will have earned the Bachelor of Science degree from Stetson University, and the professional degree Master of Forestry, or the proper Bachelor of Science degree in engineering.

A student electing to pursue one of these courses of study spends the first three years in residence at Stetson. He obtains a sound education in the humanities and other liberal arts in addition to his basic science. Such an education does more than prepare a student for his later professional training; it offers him an opportunity to develop friendships with students in many fields, expands his interests, broadens his perspectives, and begins the development of his potentialities.

A student devotes the last two years of his program to the professional forestry curriculum, or the professional engineering curriculum, as he chooses, at Duke or Florida.

Candidates for one of these combination degree programs should indicate to the Director of Admissions at Stetson University that they wish to apply for one of these courses. Admission to the University is granted under the same conditions as for other curricula. At the end of the first semester of the third year the University will recommend qualified students to Duke or Florida for the professional training. Each recommendation will be accompanied by the student's application for admission, and a transcript of his academic record at Stetson. No application need be made to Duke or Florida prior to this time.

Information concerning this program is available in the Office of the Dean of the University.

THE WASHINGTON SEMESTER

Stetson University participates in the Washington Semester of the American University at Washington, D. C. Each year a limited number of superior students in the College of Liberal Arts enjoy the opportunity of studying government and international relations in the nation's capital. The program is supervised by the American University and an inter-institutional committee made up of representatives from each of the participating colleges. Full credit for the semester's work is given towards the students' degrees at Stetson. For information consult the Dean of the University.

RESERVE OFFICERS' TRAINING CORPS

The Stetson ROTC was established during the summer of 1950 and enrolled its first students in the fall quarter of that

year. Authorized by the Secretary of the Department of the Army, it was designated as a Military Police Corps Unit. In September, 1952, the Stetson ROTC Unit was selected by the Department of the Army to institute the Branch General Program, which stresses general military subjects applicable to the Army as a whole with emphasis on leadership.

Students enrolled in the Advanced Course are not limited to any one Branch of the Army but may qualify for any one of the fifteen Special Branches. Selection for a special Branch is dependent upon each student's special talent, desire, recommendation of the University Guidance Committee and the Department of the Army quota requirements.

Two hours credit is given for each semester completed.

Transfer students and veterans may enroll in ROTC with the concurrence of the Professor of Military Science and Tactics.

ADMISSIONS

GENERAL POLICY

A Christian university with a selected student body, Stetson chooses its students on the basis of their academic ability and performance, character, health, and promise of leadership. The Admissions Committee therefore gives careful consideration to evidences of desirable character and personality as well as to the ability and eagerness to achieve a college education at Stetson.

ADMISSION TO THE FRESHMAN CLASS HIGH SCHOOL PREPARATION

All applicants must be graduates of accredited secondary schools. At least thirteen college preparatory courses must be presented. Three college preparatory courses must be in English, and one in algebra while two courses in algebra and one in plane geometry are strongly recommended. The remaining college preparatory courses should be distributed among the natural sciences, social sciences, mathematics and foreign languages.

Applicants presenting fewer than thirteen college preparatory courses will be required to give evidence of their ability to do acceptable college work. Applicants graduated from non-accredited high schools and applicants over twenty-one years of age unable to obtain admission otherwise may present satisfactory General Educational Development test scores.

ENTRANCE EXAMINATIONS

Stetson requires all applicants for admission to take the Scholarship Aptitude Test of the College Entrance Examination Board in their senior year in high school and preferably in December or January of that year. It is the students' responsibility to see that the Scholastic Aptitude Test scores are forwarded to Stetson. Information and applications for taking this test can be obtained through the high school guidance and principals' offices

or by writing directly to the College Entrance Examination Board, Box 592, Princeton, New Jersey.

The Admissions Committee welcomes other standard test scores in support of an applicant, but cannot accept such scores in place of the Scholastic Aptitude Test of the College Board.

RECOMMENDATIONS

Applicants must list on their applications the names and addresses of three people from whom the University can request personal recommendations. Two of these references must be senior year teachers, one of whom, if possible should be an English or history teacher and the other; a math or science teacher. The remaining reference may be a friend of the family, pastor, or some other person who knows the applicant well.

Included in the application materials sent to applicants is a Secondary School Record form. The first page of this form is a transcript for courses taken and marks received. The second page is for recommendations and comments concerning personal traits. Both pages must be filled out by the principal or guidance counselor before a decision on admission can be made. It is the responsibility of the applicant to see that the above official receives this form.

MATRICULATION FEE

A matriculation fee of \$10.00 should accompany all personal application forms. This fee is not returnable and must be paid before the application can be considered by the Admissions Committee.

SUMMARY

These items must be filed before the application can be acted upon:

1. The University application form, including personal references.
2. Matriculation fee.
3. Record of recent medical examination in duplicate for women and triplicate for men on the University forms provided. Veterans may present a service examination and must supply a photostatic copy of honorable discharge.
4. Secondary School Record form and such standard test scores as are available.
5. The Scholastic Aptitude Test of the College Entrance Examination Board.

NOTIFICATION

Applicants should write to the Director of Admissions for application forms in the fall of their senior year and complete them not later than early spring if the applicant does not wish to be

placed on the waiting list. Applicants will be notified of their acceptance by the Admissions Committee at the earliest possible moment.

ADVANCE FEE

All applicants for admission will pay an Advance Fee of \$50.00 by March 19 if admitted prior to that date. Applicants admitted after March 19 will be expected to pay the Advance Fee within 15 days after notification of admission. Scholarship applicants are required to pay this fee not later than two weeks after notification of an award. Applicants failing to pay the Advance Fee as requested will be placed on the waiting list until it is paid.

ADMISSION TO ADVANCED STANDING

An applicant with a C average earned at an accredited college may be admitted provided that his previous college furnishes Stetson with a statement that he is in good standing and eligible to return. *It is the student's responsibility to have this statement and his transcript sent to the Director of Admissions.* The Scholastic Aptitude Test scores of the College Entrance Examination Board must be presented by all transfer students. Applicants who have previously taken this test may present earlier scores. Credit will be accepted for courses equivalent to those offered at Stetson if graded C or better. An applicant from a non-accredited college may be accepted provisionally under the same conditions; credit must be validated by one year of full-time work (a minimum of thirty-one semester hours in residence at an accredited college) with an average of C.

ADMISSION OF SPECIAL STUDENTS

Under unusual circumstances an applicant twenty-one years of age or older may be admitted as a special student; *no work done by such a student may be counted ever toward a degree.*

* * *

The University assumes that applicants for admission have familiarized themselves with its programs and ideals and that by the act of registration agree to support and abide by the academic and social regulations set forth in this catalogue and the Student Handbook.

ORIENTATION OF NEW STUDENTS

New students are required to come to the campus several days before registration in September to begin their Orientation Program which continues through the first semester. They take placement tests and on the basis of their scores are advised about courses and registration. One of the purposes of orientation week is to introduce them to administrative officers, faculty members,

student body officers and leaders. The orientation activities are planned by a student-faculty committee and are carried out with the assistance of upperclassmen and student organizations. During the fall semester regular meetings, at which attendance is required, are held with faculty advisers to discuss adjustment to college life. Junior and senior transfers with satisfactory college records and acceptable test scores may be excused from these meetings. Orientation Week for 1960 is September 19-22 and for 1961 is September 18-21.

CLASSIFICATION OF STUDENTS

Regular students are those registered as candidates for undergraduate degrees. They are *full-time* in any semester if they carry at least twelve semester hours of class work, *part-time* if they carry less. Regular students are *Freshmen* until they have completed twenty-eight hours, *Sophomores* on completion of twenty-eight hours, *Juniors* after completion of sixty-two hours, and *Seniors* when they have completed ninety-three hours with a C average.

Special students are not eligible to work toward a degree.

Graduate students are those in progress toward a graduate degree.

Post-graduate students are those doing work beyond the undergraduate degree, but who are not candidates for graduate degrees.

Auditors attend classes but do not receive credit; they participate in class work at the option of the instructor.

ACADEMIC CREDITS AND CLASS LOAD

The academic year, from June to June, is divided into a summer session and two semesters. The semester hour is the unit of credit. One semester hour is earned for each class hour per week or for each two-hour laboratory period per week in a semester course.

The normal load for a student is sixteen hours each semester. In the summer session the normal load is nine hours. Students who earn a B average in one semester may register for eighteen hours in the following term. Heavier class loads may be undertaken only after successful petition to the Dean of the School or College. Probation students and others in special circumstances may find it advisable to carry less than normal loads. A twelve-hour load is the minimum for full-time classification.

CLASS ATTENDANCE

The method of instruction employed at Stetson requires regular attendance at classes. Two regulations govern absences: (1) A student missing classes to the detriment of his work will be

warned by the instructor that further absences may result in a reduction of his grade; he will be reported to the Office of the Dean of Men or Women. (2) Ten per cent of class meetings is regarded as a maximum of absences—for illness, emergencies, social activities, or whatever reason. A student should not expect to obtain a maximum grade after this many absences. Fewer absences than this may be allowed if the instructor invokes (1).

EXAMINATIONS, GRADES, QUALITY POINTS

EXAMINATIONS are given in all courses at the end of each semester. A student absenting himself from an examination without advance permission will be graded F in that course. Special examinations will be allowed only upon written approval of the Dean of the College or School concerned.

GRADES AND QUALITY POINTS in courses represent the instructor's final estimate of the student's performance and are based on all work done during the semester. A (three quality points per semester hour), B (two quality points per hour), C (one quality point per hour), and D (no quality points per hour) are passing grades for which the student will receive credit. F (minus one quality point per hour) is the failing grade for which no credit is given. The quality point ratio is obtained by dividing the total quality points by the total hours.

For graduation a student must present a minimum of 124 semester hours and 124 quality points. If more than 124 hours are offered for any degree, a quality point ratio of 1.0, including all courses failed, must have been earned.

The C grade is the instructor's certification that the student has demonstrated the required mastery of the material. The grade of B signifies that the student has, for any combination of reasons, gained a significantly more effective command of the material than is generally expected in that course. The A grade may be interpreted to mean that the instructor recognizes exceptional capacities and exceptional performance. A student is graded D when his grasp of the course is minimal. The F grade indicates failure to master the essentials and the necessity for repeating before credit may be allowed. Numerical grades may be used by individual instructors as a convenience but have no precise meaning and are not recognized by the University.

Some special grades are used to mark situations not described above. The temporary grade of I indicates absence from examination, or extension of time to complete work, for reasons approved in advance by the Dean of the College or School concerned. The I must be removed by special examination before the end of the next academic session in residence; otherwise, it becomes F.

A student who has an approved withdrawal from the University in the first five weeks will receive a grade of W (no quality points). After the first grade inventory, his grade will be WP (no quality points) or WF (minus one quality point per hour), according to the estimate of his instructor. X (no quality points) indicates that a course has been dropped after the deadline but has been excused from penalty for sufficient reason; otherwise XF represents penalty (minus one quality point per hour).

No grade will be changed after it has been recorded in the Registrar's Office.

SCHOLASTIC HONORS

HONOR ROLL. Undergraduates who carry a normal load of at least fifteen hours and earn no grade less than B are named each semester to the Honor Roll.

DEAN'S LIST. Junior and senior undergraduates who carry a normal load with a quality point ratio of 2.5 thereby qualify for the Dean's List.

GRADUATION HONORS. A student who has been in residence for at least two years and who has earned a quality point ratio of 2.5 is graduated *cum laude* (with honor). A student who has been in residence for at least two years and who has earned a quality point ratio of 2.7 is graduated *magna cum laude* (with great honor). A student who has been in residence for four years and has earned a quality point ratio of 2.9 with no grade below C is graduated *summa cum laude* (with highest honor).

ACADEMIC PROBATION AND SUSPENSION

Students whose cumulative academic averages drop below C will be placed on academic probation, which is continued until the C average is regained. If a student on probation fails to earn a C average in any semester, he is eligible to be dropped from the University. A student in his first freshman semester who fails all his work or who in a subsequent semester fails half his work is eligible to be dropped. Students dropped for academic failure may not re-enter the University except by permission of the Committee on Admissions; if readmitted they resume probationary status.

WITHDRAWALS

Official withdrawal from the University is granted by the Registrar only after proper clearance from the Dean of the School or College, the Dean of Men or Women, and the Business Office. Students who leave the University without proper withdrawal automatically suspend themselves and can be readmitted only with special permission from the University Committee on Admissions; the grade F is recorded for all courses.

DEGREE REQUIREMENTS

BACCALAUREATE DEGREES in the College of Liberal Arts, the School of Music, and the School of Business are conferred after completion of the academic programs prescribed and upon approval of the candidate by the faculties. Stetson reserves the right to refuse a degree whenever it appears that the character or conduct of the student will prevent his acceptable representation of the University. In addition to the requirements stated below, candidates for degrees in the School of Music and in the School of Business should consult the more detailed description of the programs in those schools that appear later in the Catalogue.

1. A minimum of 124 semester hours with a C average for all work undertaken must be presented for a degree. Forty hours must be of junior-senior rank, i.e., composed of courses numbered 300 or 400.
2. A year of residence, normally thirty-one hours, is required in the College or School in which the degree is earned; the final semester, normally sixteen hours, must be completed in residence.
3. Each degree program must include the general education courses described on pp. 67-68. The Communications (G1, 2) course must be completed in the first semesters of residence. The order of completion of the other courses in this series will be determined by the student and his adviser.

Exceptions to this requirement are made in the School of Music and the School of Business. A student registering in either school should consult the pages of this Catalogue concerning those curricula. In the College of Liberal Arts, exceptions are made for some pre-medical, pre-dental, pre-laboratory technology, and pre-engineering students. Exceptions may be made in the combination course in nursing.

Any part, or all, of the general education program may be exempted by examination upon request from a student whose qualifications indicate possible success in the examinations.

A transfer student will be required to undertake those general education courses suited to his classification and previous training.

4. Every undergraduate under thirty years of age must take a physical education activity course each of his first four semesters at Stetson. A transfer student may present credit toward this requirement but must meet it his first semester(s) at Stetson. Credit is not given in semester hours.
5. Every student must present six hours in religion.

6. Every student applying for an A.B. degree must present one year of foreign language beyond the elementary year, except for majors in elementary education.
7. Each candidate for a degree must offer a major in a department (e.g., English, religion, accounting, voice) or division (e.g., social science) of the School or College in which he is enrolled. He must have a C average in this major. The stipulations for each major are set out in this Catalogue under the courses of study beginning on pp. 49, 103, 127. After the student has chosen his major, he will be advised by that division or department in the selection of all his courses. Not more than forty semester hours may be earned in one department. At least half the work in the major field must be in the 300 and 400 series.
8. A student whose academic career is interrupted by military service may complete the requirements for his degree under the catalogue of his first registration, provided that he has not changed his first declaration concerning his major study. Other students are expected to complete their degrees within six years of matriculation. Those failing to achieve graduation in this time may be required to satisfy the requirements of the current catalogue. All changes of major entail acceptance of the requirements of the current catalogue.
9. A transfer student must earn at least six hours credit in his major field at Stetson.
10. Not more than twelve semester hours of correspondence and extension work may be credited toward a Bachelor's Degree.
11. Credit earned more than ten years before the first registration at Stetson may not be used for a degree.

Degrees are conferred in June and in August; students must file formal applications in the Office of the Registrar not later than February 15 or June 20.

THE GRADUATE DEGREES, Master of Arts and Master of Science, are described on pp. 47-48.

THE COMBINATION DEGREE is described on pp. 22 and 99.

THE BACHELOR OF LAWS DEGREE is described on p. 99 of this Catalogue, and in the *Bulletin* of the College of Law.

INFORMATION CONCERNING EXPENSES

Registration is not complete until all charges are paid or arranged for at the Business Office. When possible, payment in full prior to or at registration time is requested. If deferred payments are desired, arrangements must be made at least two weeks in advance of registration; a service charge of \$3.00 per semester is made for deferred payment privileges. Forms necessary to partial payment will be sent on request.

Delay in registration procedure may be avoided by advance payment of semester bills in full or from fifty per cent upward when partial payments have been agreed upon, but such arrangements must be completed at least two weeks prior to registration. The University has at times approved deferred payments of one third cash and the balance in monthly installments completed before the end of the semester.

A student should expect University expenses of approximately \$725 to \$775 per semester for tuition and general fees, room, and board.

Students with delinquent accounts are subject to suspension until payments due have been made. Grades are not recorded and transcripts are not issued when payments are in arrears.

WITHDRAWALS

Students withdrawing within the first five weeks of a semester will receive tuition adjustments as follows:

During the first week 90%, up to and including two weeks 80%, between two and three weeks 60%, between three and four weeks 40%, between four and five weeks 20%. After five weeks of any semester no refunds will be made, except in cases of unavoidable necessity, such as illness or a call to military service, which circumstances must be authenticated by the student to the satisfaction of the Dean of Women or of Men.

DORMITORY REFUNDS

Students vacating residence halls after registration are charged a minimum of \$50.00. If the occupant is registered for more than ten days, the charge is \$5.00 per day up to the total rental for the semester.

KOREAN VETERANS

Veterans are expected to care for approximately \$200 of their semester's expenses at registration, since their first Veterans Administration checks will not arrive until about November 20 for the fall semester and March 20 for the spring semester. Monthly certifications of enrollment to the Veterans Administration will not be processed for veterans whose accounts are in arrears of deferred payment arrangements. This will result in the

Veterans Administration making no additional payments to a veteran until the amount due the University is brought up-to-date.

HOUSING

Unmarried undergraduate women, freshmen and sophomore men, and all unmarried recipients of tuition, work or scholarship aid who do not live with their parents or guardians are required to room in University dormitories. Other unmarried undergraduates must live in places approved by the Dean of Women or Director of Men's Housing. Married students are admitted to the University and may live in dormitories when rooms are available. The University reserves the right to require any student to live in a dormitory when this appears best for his welfare. Students who are eligible to live off campus should correspond with the Dean of Women or the Director of Men's Housing for assistance in finding satisfactory quarters. The arrangements should be completed well in advance of the student's arrival.

Residence Halls are closed during the Thanksgiving, Christmas, and Easter holidays; arrangements to remain on campus may be made with the Dean of Women or the Director of Men's Housing.

STUDENT AID

Stetson University believes that financial aid should be awarded to students on the basis of ability and promise, but that the amount of the award should vary according to the financial status of the students and their families. The University is a member of The College Scholarship service of the College Entrance Examination Board. All applicants for financial assistance must file with the Committee on Student Aid the Parents' Confidential Statement of the family financial status and whatever information the Committee may request. The appropriate forms may be obtained either from the College Scholarship Service, Box 176, Princeton, New Jersey, or directly from the high school principal or guidance officer. Full details of this policy and procedure are in the Student Handbook.

All types of student aid require the recipient to maintain at least a C average in order that the aid be renewed. Also, students must file a new Parents' Confidential Statement each April. The University reserves the right to adjust the amount and type of aid if there is a change in the financial or academic status of the student.

Stetson gives student aid in the form of grants-in-aid, campus employment, and loans. Usually a student receives aid in a combination of the above.

GRANTS IN AID

A grant-in-aid is a tuition reduction which is to be applied to the student's account, and cannot exceed the tuition charge. If

the need is more than the size of the grant, further assistance may be offered by campus employment, and/or loan. The relative amount of grant, work, and loan is determined by the ability, promise, and financial need of the student.

Most grants-in-aid do not carry any name or title, as they are allocations from a general University fund. There are, however, a few special grants given by the University or outside donors. These are not always determined completely by financial need. The special awards are listed and explained on pp. 37-41.

CAMPUS EMPLOYMENT

Work on campus is available on a part-time basis to a limited number of students. Students should not expect to cover their total expenses by campus employment. The University does not guarantee a specific yearly earning from a campus job, but will attempt to make work available to meet a portion of a student's expenses. When the need exceeds the amount expected from a campus job, it may be defrayed further by a grant and/or loan. The relative amount of work, grant and loan is determined by the student's ability and promise and his financial need is measured by the Parents' Confidential Statement. In assigning work, consideration is given to the student's course schedule, his academic standing, and his ability to do the job assigned.

Students are employed in the cafeteria, library, offices, laboratories, residence halls and the Student Union.

Ten hours of work per week is represented by approximately \$100 a semester; 15 hours, \$150; and 20 hours, \$200.

Students must maintain a C average in order to work. They will also be expected to do their work on campus to the best of their ability and to the satisfaction of their supervisors.

LOANS

The assignment of loans, whether from University, private, or Federal Government funds, is based on the ability and promise of the student and his financial need. Most students receiving aid meet a portion of their financial need by assuming one of the loan plans. Application for a loan is made through the Committee on Student Aid. Loans are granted for tuition, room, and board bills, *and are never made in cash.*

UNIVERSITY SHORT TERM LOANS. Students who are unable to pay their University bills but are able to earn money during term-time and in the summer are encouraged to apply for short term loans, which usually must be repaid in three months to a year. The interest on these loans is 4%.

UNIVERSITY LONG TERM LOANS. Students with extreme need are encouraged to apply for a Stetson University long term loan.

These loans are repaid over a 10 year period beginning with the time the student leaves Stetson. There is a 4% interest charge on these loans.

FEDERAL LOANS. Stetson is one of the many universities which are receiving funds from the Federal Government under the National Defense Education Act of 1958. The University is responsible for the administration of the loans. A loan is made at 3% interest, and repayment is expected over an 11 year period commencing with the date the student leaves Stetson. Federal loan holders who teach in public schools for five years or more are forgiven half of their loans. The maximum amount of money that can be borrowed each year is \$1000. Preference is given to students who are going to be teachers in public elementary or secondary schools, or who will study mathematics, science, engineering, or a modern foreign language.

All the above loans are made directly to the student, and in a sense are a tax on the student's future earnings. Stetson believes firmly, with many other colleges, that the student should be responsible for a portion of his education, whether it be through term-time employment on campus, or a loan on future earnings, in cases where the parents are unable to meet the total expenses for college.

MEETING FINANCIAL NEED

Although Stetson tries to help each student meet his financial need through the variety of means explained on the previous pages, there are cases where the University is unable to assist enough to meet the entire need.

STUDENT AID APPLICATION PROCEDURE

Only after an applicant for student aid is accepted for admission is a decision made in regard to financial assistance. Admission and aid decisions are made as soon as all forms are completed in the spring of the year.

SPECIAL AWARDS

These are the awards that carry a special name and are outside the category of the general grants-in-aid. Unless otherwise stated, information as to how to apply for one of the following can be obtained through the Committee on Student Aid.

STETSON SCHOLARS. Each year a limited number of entering freshmen students, who have demonstrated outstanding qualities of leadership and scholastic attainment, will be chosen Stetson Scholars. This is the highest honor bestowed on an incoming freshman. The award does not carry a financial stipend, but a Stetson Scholar who needs financial assistance will be encouraged to apply for Student Aid.

VOLUSIA COUNTY HIGH SCHOOL GRANTS. A half-tuition grant, renewable throughout the four years of the recipient's college work, may be offered annually to an outstanding graduate of each of these Volusia County high schools: DeLand, Seabreeze, Mainland, New Smyrna Beach, Pierson, and Seville.

ALUMNI HONOR GRANTS. The United Stetson Alumni provide a limited number of half-tuition scholarships to entering freshmen who were elected to the National Honor Society or an equivalent honor society in high school. A candidate is sponsored jointly by his high school principal and a Stetson alumnus residing in the applicant's community. The nomination is based primarily on potential leadership ability, but applicants must show superior academic promise and be unable to attend Stetson without financial assistance. These awards are renewable annually for a total of four years, provided that the recipient contributes significantly to campus life and continues to demonstrate outstanding academic ability.

FOREIGN STUDENTS GRANTS. Students from foreign countries may be awarded tuition grants-in-aid.

ROTARY EXCHANGE TUITION GRANT. Stetson University provides a full tuition grant to a foreign student selected by the Rotary Club of DeLand in exchange for an American student, who will live in the home of the foreign student. The foreign student will reside in the home of a member of the local Rotary Club. Sons or daughters of the members of the DeLand Rotary Club have priority. This grant is not based on need. The Rotary Club assists the student by helping with travel expenses and incidentals. Write to the DeLand Rotary Club for information about this grant.

UNITED DAUGHTERS OF THE CONFEDERACY SCHOLARSHIP. The Florida Division of the United Daughters of the Confederacy joins with Stetson University in providing an annual tuition scholarship of \$250 to a descendant of a Confederate Veteran jointly selected by the two sponsors; it is based on need. Applicants for this grant should contact their local Division Director.

PRE-MINISTERIAL AID. Endorsed candidates for the Baptist ministry who are residents of Florida are eligible to apply for partial tuition aid which is provided jointly by the University and the churches of the Florida Baptist Convention upon demonstration of need. Ministerial students of other denominations in Florida and Baptist ministerial students from other states may be granted aid upon evidence of need and of academic achievement. *All applications for ministerial aid must be received by the Committee on Student Aid not later than one month prior to the beginning of the semester.*

MINISTERIAL DEPENDENCY GRANTS. Minor sons and daughters of Christian ministers may be aided upon evidence of financial need. Wards of the Baptist children's homes at Lakeland and Jacksonville and of the Methodist home at Enterprise may be aided upon demonstration of need.

CHURCH LEADERSHIP TUITION GRANT. The University joins equally with any one Baptist church in each association of the Florida Baptist Convention in providing full tuition to a student selected and endorsed by his church and association as possessing unusual capacity as a lay leader. Applicants must show marked academic promise and be unable to attend Stetson without such financial assistance. These awards are renewable annually for four years if the recipient continues to demonstrate outstanding ability and scholastic achievement and to make a significant contribution to campus and church. The recipient's service to the University and to a DeLand church will be reported regularly to his home church. Applicants should consult their local Baptist churches for the application procedure.

FLORIDA WOMAN'S MISSIONARY UNION TUITION GRANT. The Florida Woman's Missionary Union has made funds available to meet the tuition costs of a senior woman student who intends to serve as a Christian missionary at home or abroad. Any member of a Florida Baptist Church may apply during her junior year. The award is based on need, personality, activity in religious affairs, and sincerity of purpose. Applicants should write Miss Josephine Jones, State Woman's Missionary Union Secretary, Florida Baptist Convention Building, Jacksonville, Florida.

FLORIDA STATE SCHOLARSHIPS FOR PROSPECTIVE TEACHERS.

The State of Florida offers scholarships to students who plan to teach in the state. These grants are for \$400 a year and may be renewed annually for four years. The scholarships are open to high school graduates or college students who are residents of Florida. They are based on competitive examinations held in the fall and spring in the applicant's county seat or other designated place. Recipients agree to teach in the public schools of the state for a period equal to the duration of the scholarship. For further information write to Dr. Ray V. Sowers, Stetson University, consult the County Superintendent of Public Instruction, or write to the State Department of Education, Tallahassee.

THE JULIUS DAVIDSON SCHOLARSHIP. Each year a \$300 tuition grant is awarded to an upper-class School of Business student on the basis of scholastic achievement, need, aptitude, character, and promise of leadership. Write the Dean of the School of Business for information.

FLORIDA BANKERS EDUCATIONAL FOUNDATION SCHOLARSHIPS. Juniors majoring in finance and banking in the School of Busi-

Men and women who break University regulations together share responsibility and are subject to equivalent penalties. The purchase, possession, or use of alcoholic beverages is forbidden. Students may bring automobiles to college but their use is subject to University regulation. A student who marries must notify the administration in advance; failure to comply is ground for suspension; approval will be granted upon request from parents or guardians and after plans have been cleared with the Dean of Women or of Men. Detailed regulations together with definitions of conduct probation, social probation, conduct suspensions, etc., are published in the *Student Handbook* and by the Deans of Women and Men. Entrance into the University indicates agreement to abide by the regulations.

All students must file with the Registrar the name and address of the person with whom the University will communicate in case of emergency. *It is the student's continuing responsibility to keep this address current.*

College of Liberal Arts

DIVISION OF HUMANITIES

This Division includes the Departments of Art, Modern and Classical Languages, English, Philosophy, Religion, and Speech. These seek to bring about fuller, richer living, the stimulation and satisfaction of the appreciation of beauty, the cultivation of sound judgment, and the development of skills in humane communications. The humanities emphasize the experiences, the values, and the principles on which to found the best life. A major is offered in each of the six areas within the Division.

DIVISION OF NATURAL SCIENCES

The Departments included in this Division are Biology, Chemistry, Engineering, Mathematics, and Physics. Its objectives are to acquaint the student with the laws of nature, to provide training in the scientific method, to afford the opportunity for study of the natural sciences in a Christian atmosphere, and to offer a sequence of courses that will provide basic professional training in the natural sciences and pre-professional training in medicine, dentistry, and laboratory technology.

In addition to the general University requirements, a candidate for the B.S. degree in one of the laboratory sciences must present thirty hours in that department, six to ten hours in mathematics (G5, 6 or Ms105, 106) and ten hours in a second laboratory science.

For a major in mathematics the candidate must satisfy the general University requirements for the B.S. degree, present thirty hours in his major, and Ps201, 202 in lieu of the General Education requirement in physical science.

Students who major in any department of this division are advised to take French or German. The General Education science courses may be waived when other courses in these subjects are required for the major. Upon the recommendation of the major professor and with the approval of the Dean of the University of a special program of studies, the A.B. degree may be earned in this Division.

PRE-MEDICAL AND PRE-DENTAL CURRICULUM. During recent years there has been an increasing tendency on the part of medical

colleges to raise their entrance requirements. Many now require the Bachelor's degree as a prerequisite — the American College of Surgeons makes such a degree a definite requirement of its fellows. In general, medical schools require a minimum of ninety semester hours and dental schools require sixty. All schools belonging to the Association of American Medical Colleges specify that the following be included in the above requirement: English, six hours; general biology or zoology, eight hours; general chemistry, eight hours; organic chemistry, eight hours; physics, eight hours. Most approved schools require or strongly recommend the following in addition: comparative anatomy, embryology, analytical chemistry, physical chemistry, and a reading knowledge of French or German. Medical schools generally advise against taking such subjects as physiological chemistry, bacteriology, anatomy, and histology but urge the student to complete his requirements in the social sciences and humanities. *Students planning to enter medical or dental schools should consult the catalogues of the schools they desire to attend for guidance.* The Medical College Admission Test is given at Stetson twice a year, usually in May and November.

PRE-LABORATORY TECHNOLOGY COURSE. The University provides training for those students who plan to take a graduate degree in medical technology. Work is also offered to prepare students for medical technology courses in those schools and hospitals which require only two years of college work. A Bachelor of Science degree and at least one year of graduate work is advised for students interested in this field, since positions in research laboratories and hospitals require the best preparation.

The course of study is similar to pre-medical preparation; each student should include in his work some physiology and bacteriology. The details of each program will be worked out with the Chairman of the appropriate department. When possible it is desirable to plan the course with a clear understanding of the requirements of the graduate school at which the student plans to do further work.

COMBINATION COURSE FOR NURSES. This course is offered for those who wish to enjoy the cultural and scientific advantages of university training in addition to professional training. The work provides foundation studies for teaching and supervising in a school of nursing. Six years are needed to complete the course. The first two years must be spent at Stetson or at another accredited college or university. At the end of the second year, the student enters an approved school of nursing. Upon graduation (a three-year course), she re-enters Stetson. Her program of studies for this final year is planned in consultation with her adviser to complete graduation requirements. The Bachelor of Science degree is awarded for this course.

DIVISION OF SOCIAL SCIENCES

This Division includes Economics, Geography, History and Political Science, and Sociology. Journalism is administered by this Division. Study of the social sciences should guide the student toward an understanding of the bases and functioning of modern society and should help him to think realistically about social change and improvement. The several subject fields included in this Division cover a wide range of human experience, but they have an essential unity, utilize similar methods of approach, and share common objectives. A major is offered in the Division as well as in each of its departments. The group or divisional major comprises eighteen hours in one department, twelve in a second, and nine selected from the remaining social sciences.

DIVISION OF EDUCATION

RAY V. SOWERS, *Director of Teacher Education*

Teacher Education, Psychology, Health and Physical Education, Internship and Field Service are included in this Division. From its beginning Stetson University has stressed professional training for teachers. This emphasis has been reinforced through the organization of Saturday and evening classes, the enlargement of summer session work, and the continuous study and revision of the curriculum. The program of teacher education set forth here is designed to meet the requirements of Stetson University for graduation and those of the Florida State Board of Education for certification in both the elementary and secondary fields without further examination.

Florida certification requires not less than forty-five semester hours of general preparation, a minimum of twenty hours of professional preparation including internship or practice teaching, and from twelve to thirty-six hours in the field of specialization. The general education courses required of all students for graduation (see pp. 67-68) meet the general preparation requirement. *Students planning to become teachers should consult the Director of Teacher Education early in their courses. Students should make application for admission to the teacher education program not later than the first semester of their sophomore year.*

MEETING PROFESSIONAL PREPARATION REQUIREMENT. Below are indicated certain courses offered at Stetson University which have been selected to meet professional preparation requirements of the State Department of Education. It is considered best practice that these courses be taken during the junior and senior years, terminating in the internship preferably the first semester of the senior year. It is important that this order be observed by all prospective teachers.

PROFESSIONAL COURSES REQUIRED FOR ALL TEACHERS

3. Senior High School: Specialization in subject matter fields for the senior high schools will follow requirements for a major in the student's chosen field.

THE PLACEMENT OF TEACHERS

It is the policy of the University to try to place its graduates in positions for which they are properly trained and fitted by scholarship and personality. The very large percentage of Stetson

teachers placed in Florida schools and elsewhere in the past evidences a fine spirit of cooperation between the University and the public schools.

DIVISION OF GRADUATE STUDIES

T. E. SMOTHERMAN, *Chairman of the Graduate Council*

The graduate degrees Master of Arts and Master of Science are awarded by the College of Liberal Arts upon completion of the appropriate courses of study in the following departments: American Studies, Biology, Chemistry, Education, English, History and Political Science, and Religion. Graduate study is under the supervision of the Graduate Council.

Application for admission to graduate study is made on a form provided by the office of the Chairman of the Graduate Council. This form is required in addition to the credentials requested for admission to the University.

All forms must be completed, and admission to the Graduate Division granted, prior to the semester in which the student begins his work for the advanced degree.

A baccalaureate degree from an accredited college or university is required of applicants. Transcripts of all undergraduate credits must be filed with the application. These transcripts and the supporting recommendations must present evidence of sufficient and satisfactory undergraduate preparation and of desirable character and personality.

The Graduate Record Examination is required and must be taken during the first term in residence if not completed before entrance. A score of at least the 50th percentile on the Advanced Test in the field of the student's major interest is required for admission to candidacy.

The maximum class load is fifteen semester hours. The Council reserves the right to reduce the load for those who for any reason might endanger their standing by attempting the maximum. No in-service teacher may register for more than three semester hours in one term.

At the beginning of his study, the candidate must have his program approved by the heads of the departments in which he plans to work and by the Chairman of the Council. Usually the courses are chosen from two departments. Not fewer than eighteen hours may be in the major subject; not less than six in minor. When the minimum eighteen hours are undertaken in the major, there may be an associated minor and an independent minor.

Each candidate must complete a minimum course of thirty semester hours. A thesis satisfies the requirement in the amount of six semester hours. If the student, with the approval of his

major professor, elects not to write a thesis, he must present one research paper for approval in addition to the thirty hours. At the time of the applicant's acceptance for graduate study, he will be notified of any additional hours required of him above the thirty-hour minimum. The major professor determines what the additional courses must be.

Admission to study does not imply admission to candidacy for a degree, which is granted only upon completion of one semester at Stetson, written recommendation of the major professor, approval of the Graduate Chairman, and the presentation of the required score on the Advanced Test in the student's major field.

One academic year in residence is required. The Council defines a year of residence as two semesters on campus, regardless of the amount of work taken. Saturday and evening sessions are credited as one-fourth semester each. All students must spend one regular session in residence (fall semester, spring semester, or full-length summer session). The work for the degree ought to be completed within two years; it must be finished within six years.

A maximum of six semester hours earned elsewhere may be transferred to Stetson provided they are approved by the major professor and the Graduate Chairman. Transferred credit shall not reduce the required year of residence.

A reading knowledge of a modern foreign language may be required by the major department. A student who plans to take a doctorate should keep in mind that a reading knowledge of French and German is an almost universal minimum requirement.

Grades for graduate students are H, Honors; S, Satisfactory; and UC, UD, UF, Unsatisfactory. The Satisfactory grade denotes entirely acceptable work and approximates the undergraduate grades of A and B. The Honors grade signifies exceptional performance. The Unsatisfactory grade indicates the undergraduate level of performance.

The candidate who writes a thesis must submit two copies for binding. One copy is presented to the professor who directs the research; the other is deposited in the University Library. The thesis must be ready for binding prior to time of the oral examination. A fee of \$10.00 is required to bind two copies; the student may have additional copies bound at his expense.

Each candidate must pass an oral examination covering the thesis and the fields of his graduate study together with general knowledge appropriate to mastery of his field. Preliminary to the oral, the major department may require a comprehensive written examination. Prior to the oral, typewritten briefs of transferred courses together with an abstract of the thesis, or research paper, must be filed with the Graduate Chairman. Six copies are required.

College of Law

HISTORY

THE COLLEGE OF LAW is the oldest law school in Florida. From its founding in 1900 until the close of the academic year 1953-54, it was located in DeLand. During that half-century its graduates achieved distinction in both state and nation. In the summer of 1954, the College was moved to a new twelve acre campus in the pleasant Gulfport residential section of St. Petersburg, Florida. The present location provides ready access to the courts, agencies, and other institutional facilities of the Tampa Bay metropolitan area.

ACCREDITATION

The College of Law is a member of the Association of American Law Schools and is approved by the American Bar Association.

PURPOSE

The course of instruction is planned to fit the graduate for the successful practice of law in any state of the United States. The curriculum, the basis of which is furnished by Anglo-American common law, is planned to present underlying principles of law, together with their rules and history. An attempt is made to teach principles and develop the ability to apply them. In addition, an effort is made to emphasize the statutory and judicial modifications that have been made to the common law in Florida.

The Faculty emphasizes the active duties of the office and courtroom. At the same time effort is made to impress upon the students, both in the classroom and in private conferences, a high conception of the ethical and public responsibilities of the profession without which knowledge of the law may be detrimental both to the individual and to the state. Effort is further made to search for and to evaluate the philosophy that underlies the various principles of law. In procedural or adjective law a similar method is supplemented by careful instruction in pleading and practice through the drafting of legal papers and through a well-developed practice court that supplies practical training.

THE LAW LIBRARY

The library is a collection of over twenty-five thousand volumes which is being constantly enriched by gifts from alumni, other members of the bar, and friends of the College.

PRE-LEGAL EDUCATION

The College of Law does not require applicants to follow a prescribed course of pre-legal education. However, preference is given to applicants who have satisfactorily completed college courses in at least six of the following subject groups: social science (government, economics, sociology), philosophy and ethics, psychology and logic, English and American literature, English and American history, mathematics, laboratory science (biology, chemistry, physics), ancient or modern foreign languages, and accounting.

ADMISSIONS

The College of Law selects its students from the following:

1. Applicants who hold baccalaureate degrees from accredited colleges and universities.
2. Applicants with above average grades who have completed three-fourths of a four-year course of study acceptable for a baccalaureate degree at an accredited college or university. Not more than ten per cent of the credit presented for admission shall be in non-theory courses in military science, hygiene, domestic arts, physical education, vocal or instrumental music, or courses without intellectual content of substantial value.

Applicants must file forms with the Dean of the College of Law at St. Petersburg, including transcripts of their college credits.

Applicants for admission are required to take the Law School Admission Test administered by the Educational Testing Service. Applicants should write to Educational Testing Service, 20 Nassau St., Princeton, New Jersey, for an application form for this test and a bulletin giving information about its administration.

ADVANCED STANDING

An applicant with satisfactory grades may be admitted to advanced standing, not to exceed two years, by transfer from another accredited law school, provided he furnishes an official statement that he is in good standing as to conduct and scholarship and is eligible to return. Only those courses graded C or better may be transferred.

DEGREE REQUIREMENTS

A minimum of 92 semester hours and 92 quality points, with an average of C in the total of all work attempted in the College, must be presented for the degree Bachelor of Laws (LL.B.). Three academic years (at least ninety weeks—six semesters) are required, the last year (two semesters or their equivalent) of which must be completed in residence at Stetson University College of Law. At least ten hours per semester are required for full residence credit.

Degrees are conferred upon students who meet the prescribed academic requirements and are approved by the Faculty of the College. The College reserves the right to refuse a degree whenever it appears that the character or conduct of a student will prevent his acceptable representation of the College or will compromise the legal profession.

COMBINATION COURSE

A student who has a year of residence in the Stetson College of Liberal Arts or in the Stetson School of Business and who has met the requirements of a department, division, or school, may, upon the successful completion of his law course, receive the degree Bachelor of Arts or Bachelor of Science together with the degree Bachelor of Laws. Thus, a student may receive both the academic and the law degree at the conclusion of six years of study.

Students should consult the Dean of the College of Liberal Arts, or the Dean of the School of Business, as soon as they have determined to enter upon this course of study, in order that their programs may be worked out properly.

School of Music

THE STETSON SCHOOL of Music is a member of the National Association of Schools of Music. The School prepares students for the music profession, including the teaching of music in the public schools and the directing of church music. It also offers a variety of courses for the non-professional. There is a preparatory department for children and for students whose previous training has been insufficient.

The School of Music is housed in DeLand Hall and Annexes with separate facilities for the bands and the orchestra in the Band Hall. A specialized music library of scores and recordings supplements the music literature collections of the University Library.

RECITALS AND CONCERTS

Experience in public performance is provided by recitals, oratorios, operas, and the band, orchestra, and chorus concerts. Music majors are required to attend recitals.

ARTIST PROGRAMS

Many opportunities to hear individual artists, ensembles, and orchestras are furnished by Faculty and Fine Arts Series concerts, and the Civic Music Association of DeLand and nearby cities.

CONCERT BUREAU

The Faculty of the School of Music are available for concert performance. Inquiries should be addressed to the Dean of the School of Music.

SCHOLARSHIPS AND STUDENT AID

Students in the School of Music are eligible to apply for the scholarships and grants described on page 35. A limited number of music students are employed in the School of Music as stenographers, accompanists, and library assistants.

PREPARATORY DEPARTMENT

The School of Music maintains a Preparatory Department for the benefit of children and young persons within the radius of DeLand. Its two-fold purpose is to offer the best musical training to children, and to provide observation of methods of class and

individual teaching for college students. Both class and private lessons are given in piano, organ, band and orchestral instruments, and voice.

ADMISSIONS, ACADEMIC REGULATIONS, DEGREE REQUIREMENTS

For Admissions and expenses see the general University requirements on pp. 24, 31. Other academic and social regulations are the same as outlined for the University on pp. 24-42. Information concerning fees for private lessons is available from the Dean of the School of Music.

The degrees Bachelor of Music and Bachelor of Music Education are conferred upon those students who have completed the prescribed academic program and have been approved by the Faculty. The School of Music reserves the right to withhold the degree when it appears that the character or conduct of a student will prevent his acceptable representation of the University. All candidates are required to participate in general student recitals and in senior recitals. An applied music major must present a complete senior recital of not less than fifty minutes duration. Music majors pursuing the Bachelor of Music Degree in Theory, Voice, or Orchestral Instruments, Church Music and Music Education are required to participate in assigned ensembles until graduation.

THE MAJOR

Majors for the Bachelor of Music degree are offered in Piano, Voice, Organ, Orchestral Instruments, Theory, and Church Music. The Bachelor of Music Education and Bachelor of Arts (major in music) degrees are also offered. Each major fulfills the requirements of the National Association of Schools of Music; the Bachelor of Music Education degree satisfies teacher certification requirements for the state of Florida.

School of Business

THE SCHOOL OF BUSINESS was established in 1940. It is housed in its own building on the main campus.

PURPOSE

The college graduate entering business without special preparation suffers a handicap; similarly one who confines his study to business is handicapped. The program of the School of Business, therefore, is a combination of liberal arts and business subjects. The Faculty endeavor to cultivate in students those qualities of mind and character that will make useful citizens with high ideals of business morality and social responsibility. Students are encouraged to acquire a clear understanding of modern industrial society and of their responsibilities and opportunities in it.

ADMISSIONS

See general University requirements on pp. 24ff. Students enrolled in other colleges of the University are permitted to take courses in the School of Business as electives. Students in the School of Business may elect courses in the other colleges of the University except the College of Law.

DEGREE REQUIREMENTS

The degree Bachelor of Science (Business) is conferred upon those students who complete the prescribed academic program and who have been approved by the Faculty. The School reserves the right to refuse a degree when it appears that the character or conduct of the student will prevent his acceptable representation of the University. All candidates for the degree must complete a core curriculum of 54-56 semester hours. The purpose of these courses is to lay a broad foundation so that the student will have some knowledge of history, government, science and literature as a background. The remainder of his work is taken in a field of concentration chosen by the student and designed to make him proficient in some field of business activity. At least forty per cent of the student's work must be taken in the College of Liberal Arts.

COMBINATION DEGREE

A student who has, in three years, completed the core curriculum required of all students majoring in business and has completed the courses required in the Combination Business-Law concentration (see p. 128), may take the first year in the College of Law for his senior year. Upon completion of the requirements of the College of Law, he will receive not only the degree Bachelor of Laws but the degree Bachelor of Science (Business); thus he may receive both degrees at the conclusion of six years of study. An average grade of C is required in each college.
